Experience

Senior Web Application Developer at LinkedIn

September 2017 - Present

I have worked on various frontend web development projects for 7+ years.

My main skills include:

- Wordpress, Shopify
- Javascript, Php
- Html5, CSS
- Git as version Control System
- Brunch/WebPack/Gulp as build tool
- d3.js, React.js (Redux/Flux)
- Vue.js (Vuex)

Also, I'm in love with responsive design and very good in flexbox and inline-block layouts.

As of my personal qualities, I'm always working responsibly and diligently, good in communicating. I'll be glad to answer any questions about myself, feel free to ask.
